

We are a ex miners group of 30 in the Llynfi Valley and are very proud of our heritage we are a dying breed of coal miner's and want to tell our story Anwen has enabled us to do this through certain projects and as an ex miner myself think it's brilliant it's a story that needs to be told to the younger generation before it's to late the valleys and towns of Wales were build on Coal and steel this is why we exist today your help is invaluable to help produce this story to be told to generations the time when Coal was king what an education to the younger generation who are our time capsules it's so important that this story be told.

Thank you to Anwen and Andre, Mike Church the team

Llynfi ex miners
