

Dear Claire Cressy (Head of Theatres and Creative Wellbeing),

We support your funding bid to Arts Council of Wales because at present Awen is currently not very present in our locality and we welcome their work to increase activities that will promote cultural arts, increase wellbeing and mental health of our community in community buildings. The investment would make services and activities that Awen facilitate more accessible to the community as we are an area of deprivation, and many residents are isolated and without the financial means to travel .

Regards

Terrina Greenslade
